SKILLS

- Proficient in HTML5, CSS3, and JavaScript
- React Js
- Basic knowledge of version control systems (e.g., Git)
- Understanding of responsive web design principles
- Java

PROFILE

As a web developer intern, my primary goal is to gain practical experience by working on real-world web development projects. I am committed to enhancing my coding skills, collaborating effectively with team members, and contributing to the success of the organization. I aspire to become a proficient web developer and apply the knowledge and experience gained during this internship to create innovative and user-friendly websites in the future.

PROJECTS

Razorpay clone

Description : Razorpay Website Clone project is an ambitious endeavor to replicate and recreate the functionality and design of a popular Razorpay website. This project serves as an opportunity to hone our web development skills, including front-end using tailwind css and design principles, and user experience considerations.
